The work of LITCs has a tremendous impact on the lives of low-income and ESL taxpayers across the country as well as on the fairness and integrity of the U.S. tax system. The best way to understand that impact is through the cases the LITCs work and the projects and initiatives they conduct.

REPRESENTATION

A Gulf War Navy Veteran was recovering from injuries he suffered during his military service and battling alcohol addiction. One issue weighing heavily on him was the past-due federal tax debt he accrued while homeless and in the throes of addiction. He was a reserved individual, and it took him a long time to open up and trust anyone at the clinic. However, once he did, LITC volunteers helped him prepare an offer in compromise (OIC). While the volunteers processed and worked the OIC, the client focused on a full-time college course load. Approximately \$20,000 in tax debt was resolved when the IRS agreed to a one-time payment of \$20 based upon his financial situation. He is now IRS debt free, in filing compliance, and living in an apartment. With the help of an LITC, the taxpayer has taken big steps forward on his road to financial recovery.

EDUCATION

The Tennessee Taxpayer Project held quarterly educational presentations with a community partner, Centro Hispano, a nonprofit organization that assists ESL taxpayers. An ESL taxpayer who attended an LITC Zoom session at Centro Hispano learned about a taxpayer's right to appeal an IRS decision and the refund statute of limitations. The taxpayer had filed her last three years' tax returns but had not received the refunds. After learning about the LITC, she reached out for help. The LITC investigated and learned the IRS held the refunds because of a name and Social Security number mismatch that the LITC helped the taxpayer resolve. The IRS released all three years of refunds, totaling approximately \$12,000. The LITC's education efforts helped to inform an ESL taxpayer about her rights and the tax law, which empowered her to seek assistance and led to the release of the refunds to which she was entitled.

ADVOCACY

In the summer of 2020, the Villanova Federal Tax Clinic together with Community Legal Services of Philadelphia and pro bono counsel from Berger Montague filed a lawsuit on behalf of a Philadelphia community organization called Face to Face and several of its low-income clients. The suit alleged that the IRS had unlawfully limited access to the EIP portal for non-filers who were recipients of federal disability and retirement benefits, giving those individuals 40 hours (at worst) to 10 days (at best) to add their dependents' information to the portal. In contrast, non-filers who did not receive federal benefits had significantly more time to access that same portal. The litigation, along with other factors, led to the IRS extending the deadline for federal beneficiaries to submit dependent information to the portal by over six months. This extension provided much-needed financial relief to low-income parents and caretaker relatives many months sooner than if they had to wait for a 2020 recovery rebate credit to arrive.
